

JAIRO FLORES SALGADO

IBMi RPG-DB2 Software Engineer

+1 (916) 534 3747 • JairoFloresS@gmail.com • [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 25+ years of experience as the go-to problem solver for complex challenges. Expertise in software development and production support across the complete SDLC of IBMi and SQL DB2 products. Skilled in end-to-end software design, development, and implementation—ranging from requirements gathering to coding, testing, and production support. Proven ability to manage and coordinate complex projects to deliver innovative solutions. Experienced in AI integration, Google Cloud, Firebase, and mobile application development to create intelligent, scalable, and user-focused solutions.

KEY SKILLS

- **IBM i Development:** CLLE, SQLRPGLE, CGIDev2, APIs, TCP/IP Comms, IFS, MQ, QShell scripting, Java POI, and Web Services
- **SQL DB2:** DDL, DML, Stored Procedures, SQL and RPGLE Triggers and Functions, JSON SQL Functions, and Performance Tuning
- **NoSQL DBs:** PostgreSQL, Google Firestore
- **CMS:** Aldon, PDE400, Git, CVS and SVN
- **J2EE:** Java, JSPs, Servlets, Beans, NodeJS, Typescript, JavaScript, jQuery, HTML5, CSS3, SASS
- **LLMs, Cloud, Mobile apps:** LLMs APIs, Kotlin, Python, Golang, gRPC, Google Cloud Run, and Containerization

PROFESSIONAL EXPERIENCE

02/2025 – Current

IBMi Senior Software Engineer

UPMC | Remote

Working for UPMC as a remote consultant

- Hired to **maintain, modernize and optimize** ILE RPG/DB2 applications with ProfoundUI frontend.

IBMi Senior Software Engineer

09/2021 – 2025/01

Novacomp | Remote

Working for client BAC Credomatic group, the leading Financial Group in Central America, with more than 5 million clients

- Recruited to **modernize and optimize** legacy intensive transactions RPG and DB2 processes
- By using **SQL optimization** techniques, **DB tuning**, **RPG optimizations**, Multithreading processes, and implementing new technologies like Rational Open Access, reduced processing times by up to **90%** in some cases

IBMi and Java Developer

01/2015 - 09/2021

Datapro Inc | Remote

Datapro Inc. offers specialized data solutions for e-IBS (electronic banking systems) with more than 150 clients banks around the world.

Worked for Luxemburg Bank, International Ecuador Bank, Davivienda El Salvador Bank, Scotiabank Mexico and Lafise Group

- Developed and maintain **J2EE applications** with RPG and DB2 backend, enhancing the base code according to clients needs
- Maintained and created applications for consuming and exposing **web services**, including RPG, SQL, SOAP, Rest, APIs and IWS
- Implemented and updated apps for **EDI, ETL and ELT** of Data docs using Web Services, FTP, SFT, and sockets, also connecting IBMi apps and external MSSql

IBMi Spare Parts & Retail System Developer

08/2015 - 05/2018

Casapellas Group | Managua, Nic

Casa Pellas is the Leading Business Group in Nicaragua, sale of new cars, liquor, industrial machinery, tires, spare parts, motorcycles, marine engines and distribution of consumer products

- Enhanced the Retail system by connecting IBMi RPG and DB2 applications to web services exposed by the **CRM system**
- Worked on Integration between JDE Edwards Enterprise One **ERP** and Spare Parts Inventory System and Retail System
- Managed the system backlog as **Scrum Master**, leading cross-functional teams to deliver key requirements on time and in alignment with business objectives

AS400 Developer

01/2003 - 01/2015

BAC Credomatic Group | Managua, Nic

- Worked on in-house **Credit Card and Banking Systems**, developing, maintaining and providing production support for business applications
- Handled AS400 backend applications for **intensive transactional systems**, including the bank teller system and online banking branch
- Developed AS400 backend framework for **consuming Rest and Soap web services** and EDI operations with JSON, XML, CVS and raw data documents, providing a fast and reliable way to connect new companies to receive bank services
- Create a Web2.0 application with ExtJS framework and RPG backend for a migrated insurance system

10/2000 - 01/2003

AS400 Operator and Administrator

BAC Credomatic Group | Managua, Nic

BAC Credomatic group is the leading Financial Group in Central America, with more than 5 million clients

- **Operated Data Center**, performing nightly bank and card settlement processes, monitoring the ATM network, the POS network and the systems in general
- Refined and automated operators' processes, **enhancing the time** used in manual tasks
- **Performed business process deployments**, journal extraction and analysis, major operating system backups and upgrades, and continuous business process monitoring
- Researched and Troubleshooted **deployments problems and errors** with all the countries in the group
- Managed AS400 network configs, DB2 security, IFS administration, FTP/SFTP security, SSH, TLS and HTTPS configs, user, user groups, auth lists, and objects authorization control

EDUCATION

B.S. Systems Engineering 01/1997 - 11/2001 (not graduated)

National University of Engineering | Managua, Nic [UNI](#)

The "Universidad Nacional de Ingeniería", is the top public university in Nicaragua

B.S. Systems Engineering 01/2018 - 07/2022 (graduated)

Metropolitan University - UNIMET | Managua, Nic

PROFESSIONAL DEVELOPMENT/AFFILIATIONS

- Certified **Data Analyst**, by Calbright College, '24
- **Project Management** certification, by Calbright College, '25 (ongoing)
- Actively contributing to [Learnall.us](#) development ecosystem, applying Kotlin Android, Flutter for iOS, and Firebase (Auth, Firestore, Cloud Functions, Hosting) for secure, real-time, cost-efficient data flows; implementing Python serverless logic and Data Analysis, Cloud Run Golang REST APIs, OAuth 2.0 with Google Identity, and CI-ready Cloud Run/Docker services; integrating LLM APIs and analytics-driven gamification models, with denormalized Firestore schemas.
